

November 24, 2015

The following was sent to all program directors.

NOW LAUNCHING! WIN career-readiness products now available for students

KYAE has exciting news to share! The tedious process of integrating WIN with KAERS is now complete, and thanks to the hard work of our technical team, **everyone** - including students, instructors, and administrators - **has single sign-on capabilities through the KAERS portal**. This should save untold time in tracking down forgotten or misplaced usernames and passwords, as well as help to increase students' confidence in using online platforms similar to those used in the workplace.

With the addition of this resource and the KYAE Lesson Bank (which provides contextualized lessons that integrate GED® preparation with the KYAE Employability Standards), your programs can provide:

- Instruction that is contextualized for workforce preparation by integrating the KYAE Employability Standards with the College and Career Readiness Standards;
- A program of study for each student that concurrently prepares them for the GED® and/or NCRC, as well as **the brand-new Kentucky Essential Skills Certificate (KESC)**; and
- Online, self-navigating courseware for NCRC preparation, KESC preparation, and College Readiness.

[Click here](#) to access a document that provides guidance that you can use to spread the word with your staff. In the next week, we will also be sending out information on follow-up webinars for those who are interested.

Thank you for your enthusiasm and for the work you do every day. If I can be of assistance, please do not hesitate to reach out.
